

KLAFS InfraPLUS Backrest & Smart Seat

Targeted Infrared Treatment

InfraPLUS Backrest

The InfraPLUS Backrest option works with all KLAFS sauna models, providing a “best of both worlds” solution: a multifunctional sauna that combines the therapeutic benefits of targeted longwave infrared-C radiation therapy with the proven physical and mental benefits of traditional, high-heat sauna bathing.

The InfraPLUS Backrest can be adjusted into a number of comfortable positions. So whether you’re enjoying an infrared treatment or a relaxing sauna session, you will always experience luxurious comfort.

InfraPLUS Smart Seat

The InfraPLUS Smart Seat can fit into any wellness suite or bathroom, delivering a pleasant heat application that takes up minimal space.

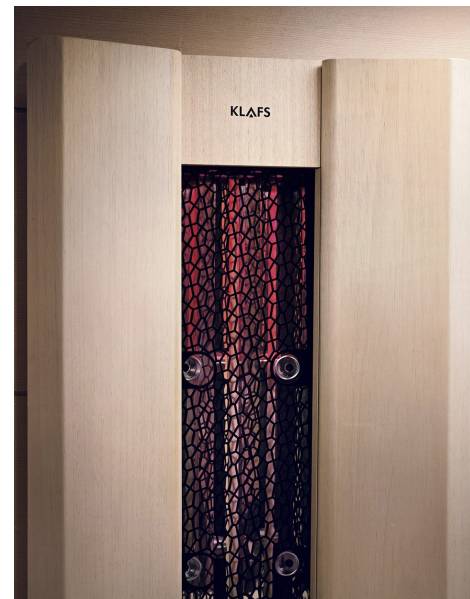

KLAFS InfraPLUS Backrest can be adjusted into a number of comfortable positions. So whether you're enjoying an infrared treatment or a relaxing sauna session, you will always experience luxurious comfort.

FEATURES

- With InfraPLUS, infrared-C radiation warms your back intensively.
- Targeted heat with intensity regulated automatically via four SensoCare sensors.
- Backrest can be adjusted to various levels.
- Life-long guarantee for the patented low-temperature ceramic heater.

WOOD OPTIONS

Available in hemlock, Obeche and walnut finishes.
